FLAGLER'S DEATH IS MYSTERIOUS

Cousin Alleges he Was Refused Admission to Millionaire Relative

DETECTIVES GUARD.

Was Not Allowed to Leave Card—Village Physician Attends Deceased In a Bleak House.

New York, June 21.—Amas Plummer Flagler head of the Western branch of the Flagler family and nearest blood relative of the late Henry M. Flagler, except for Harry Harkness Flagler, a son, has given out a statement of the strange circumstances surrounding his last visit to the Florida empire-builder and concerning the construction of a part of the will.

The $100,000,000 estate of Henry M. Flagler was devised principally to the widow who was Mary L. Keenan. She received $60,000,000. The son received $1,000,000, and the rest was divided among relatives of Mrs. Flagler, business associates of the dead financier and chasrities.

J. B. Parrott president of the Flagler railroad, William R. Keenan, brother of the widow, and W. H. Beardsley, were named trustees of the estate.

In his interview Mr. Flagler said:

"When I went to Palm Beach immediately before Henry's death, I received the shock of my life.

"Instead of finding him, a sick old man, in the luxurious home he had built, surrounded by the beautiful things which he loved and where he would naturally prefer to spend his last moments, I found him hustled away to an old bleak, uncomfortable house away out by the beach.

"Instead of finding him surrounded by the friends and relatives who had loved and respected him during a lifetime, I found a cordon of detectives drawn around the lonely house, forbidding entrance to every one.

"Instead of finding the surgeons and specialists which Mr. Flagler's wealth could easily command, I found in entire charge of the sick room and to the exclusion of every one else, Mrs. Flagler's cousin, a village physician named Keenan.

"Instead of the welcome that might naturally be expected under the circumstances, I found that I was treated as an outsider. An old friend and cousin, nearest relative except the son, was forbidden a talk with the dying man.

"I was denied admittance to the house, stopped by the detectives, and forbidden to leave a card or approach the dwelling by J. B. Parrott, one of the big beneficieries under the will. I was denied every opportunity to get near him, to thank him once before he died for what he had done for me.

CAN'T RESTRAIN MARRIAGE.

Would be Against Public Policy Rules New Jersey Court.

Trenton, N. J., June 21.—Taking the stand that it is against public policy to restrain marriage, the Court of Errors and Appeals here has refused to affirm a decision of the lower court setting aside a note for $3000,000 given by the late Henry Van Riper, of Paterson, to Mrs. May Lowe. A new trial of the action has been ordered by the court.

Mrs. Lowe before her marriage was Miss May Wood. She testified that Mr. Van Riper gave her the note to be paid out of his estate on the contion that she should care for him until his death and that she should not marry.

The executor of the estate refused payment on the ground that Mrs. Lowe had broken the agreement by taking a husband. The lower court upheld his attitude and it was from this decision that Mrs. Lowe appealed.

A severe battle fought between the Italian troops and the Tripolitan Arabs at Ettangi Thursday cost the lives of one Italian officer and 217 men were wounded. According to an official dispatch from Derna, General Salsa surprised a native camp and hard fighting ensued, lasting an hour. The Arabs, he reports, were completely routed. Their losses are unknown.

Restoration of wire communication yesterday into the district of Florida ravaged by Wednesday night's cyclone established the appalling fact that the death list may go over 100. In and near Tallahassee the number of victims is placed at twenty. A terrific burst of wind, which levelled houses, telephone and telegraph poles and trees was followed by a cloudburst. Crops have suffered heavily.

A further apology was offered yesterday in Tokio to Arthur Bailly-Blauchard, United States charge d'Affairs by Keishiro Matsui, under secretary of state for foreign affairs for the action of the persons who on June 18 wrote on the walls of the embassy an inscription directed against the United States and calling Americans the enemies of liberty and justice. The under-secretary called and voiced the government's regret. The foreign office had sent a formal apologetic message immediately after the occurrence. Search for the culprits is still proceeding.

One man was killed and three women and one man were injured in St. Louis yesterday when a revolving drum burst on the second floor of a factory of the Rice-Stix Dry Goods Company. The drum was used for drying clothes. No expanation of the accident has been given other than that the drum broke under centrifugal pressure. The drum weighed 400 pounds, was lined with copper and had an outside sheath of steel half an inch thick.

Thouasnds throng to see the largest ship afloat. They've been doing this very thing ever since the Mayflower brought over the ancestors of all the people in New England.

The appellate division of the Supreme Court of New York disposed of the cases of Charles H. Hyde, former city chamberlain charged with bribery in connection with the negotiation of a loan for the Carnegie Trust Company, by ordering the indictment dismissed.

The case of Engineer Schroder, or Hronell, N. Y., charged with manslaughter, as a result of the wreck near here July 4th last, will probably go to the jury late today.

The navy added it first victim to the death roll of the air yesterday when Ensign William S. Billingsley was hurled from a disabled biplane 1,600 feet in the air, and fell, straight as a plummet into the depths of Chesapeake Bay near Annapolis. Lieut. John H. Towers, chief of the navy aviators, clung to the hurtling wreck that followed comrade's course from sky to water, and escaped death, almost miraculously. He is seriously injured.

That her husband smoked in bed and kept her awake most of the night is the testimony of Mrs. Anna M. Bennett, in her application for a divorce from Frank Bennett, of Hazelwood, Pa. They were married in 1910, and lived together for only 3 weeks. The case was heard before a master, and he recommended that an absolute divorce be given to Mrs. Bennett.

ANXIOUS FOR NEW HIGHWAY

Supervisors Ask Bids for Work Between Accotink And Alexandria.

WORK TO BE PUSHED.

Proposed Thoroughfare Meets With Approval in All Localities Through Which it is to Pass.

That the construction of the Washington-Richmond highway is substantially completed is assured by the fact that State Highway Commissioner Wilson is asking for bids for the building of about six miles of road between this city and Accotink, Fairfax county, to be opened June 23rd. This is the last stretch of road unimproved between the state and national capitols. The move marks a resumption of road construction in Fairfax county, the board of supervisors having decided some time ago, to expend the state aid for the current year, together with an equivalent sum from the county funds, on this highway.

The annual report of the State Highway Commissioner, just published, gives the total expenditure on the Fairfax division of the road as $37,735.81 and on bridges $1,611.56. There has been extended on the Langley road, Alexandria county, the sum of $9,821.17, on the contract taken over by Joseph Leiter. This is a fourteen foot road with a tar binder, and the cost has been largely borne by Mr. Leiter, himself.

PREVAILING HEAT WAVE.

Storms Struck Several Cities Yesterday and Last Night.

The heat wave was intense yesterday, and at the close of the day there were indications of the aproach of a shower. There was considerable lightning, but after dark the stars began to shine as usual. About one o'clock this morning there was a light rain, accompanied by an electrical display. The weather today has been hot.

Baltimore was visited by one of the most severe gales in its history shortly after one o'clock last night, and, although no lives were lost, there was considerable damage to property in the city and the surrounding country. The waters of the bay and harbor were whipped into a seething sea by the wind.

Telegraph lines running into Washington from Baltimore Philadelphia and New York were temporarily crippled for a short time last night as a result of the severe thunderstorm that swept down the North Atlantic Coast.

The storm is bearing south along the coast and is scheduled to reach this vicinity today.

Local hail storms were experienced in New York last night.

VIRGINIAN KILLED.

Crawford A. Williams, of Charlotte, Meets Death in Auto Accident.

Charlotte N. C., June 21.—The reverse curve on the river road six miles out of this city, where the road bends on a fifteen-foot embankment to cross the railroad, overturned another car yesterday afternoon, when Crawford A. Williams, manager of the local Pepsi-Cola Company, was caught under his machine, his skull fractured, instantly killing him, while a small negro boy who was with him in the car escaped unscratched. Just a few nights ago, a car containing four negroes ran off the same embankment, struck a telegraph pole, and cut it in too, and none of the occupants was hurt.

The estimated speed of the car was 25 miles an hour, and it is thought that Mr. Williams had misgauged this, as the curve is well known for its danger. It was stated by some of the dead man's friends, that the steering gear of the car, a 30-horse power machine, had probably stuck.

STUDYING FOOD SUPPLY.

To Find Out if the Consumer Pays Prices That are Too High.

New York, June 21.—A scientific study of the city's food supply, with a view to determine whether the consumer pays prices that are too high, has been begun by the department of social welfare of the Association for Improving the Conditions of the Poor, it was announced yesterday.

A wide scope of inquiry is planned, including gathering of evidence as to the short weights and measures, trade deceptions, retail margin of profits, prevailing wages and hours of work in food supply stores, adequacy of storage facilities, wastes in food supplies and sanitary conditions. The part the middle man plays in the high cost of living will be looked into and an effort made to give the consumer authoritative information on how and what to buy.

SENATE DEMOCRATS MEET IN CAUCUS

Daily Conferences to be Held Until Bill is Ready For Senate.

DEBATE NEXT MONTH.

No Pronounced Opposition Developed So Far—Most Democrats Will Sustain President.

Washington, June 21. — Senate Democrats met in caucus again this morning to consider the tariff bill, schedule by schedule. Daily caucuses will be held from now on until the bill is ready to be reported back to the Senate.

Little expectation is now indulged of getting the bill to the Senate or at any rate of being able to begin debate on it, until after July 4th.

Just how much discussion will break out in caucus no one can foretell. Thus far no pronounced opposition has been manifested in caucus to any of the items, but it is well understood such opposition exists.

Few senators on the Democratic side, however, are willing to oppose the wishes of the President, and most of them will yield to his views and the will of the caucus. Senators Ransdell and Thornton of Louisiana will not support the bill if it contains free sugar, and it is not certain Senator Walsh will do so, but the belief is he will yield and line up for the bill on final vote.

The bill, contrary to the expectations of many, is lower than the House bill. Compared to the Underwood bill, it will increase the revenues $5,000,000.

Bequests of $250 each are left to Fulton Baptist Church, Denny street Methodist Church and to the Richmond Home for Incurables

UNION WORKMEN ASK ARBITRATION

Appeal to Mayor Harrison and County Board of Commissioners.

30,000 MEN LOCKED OUT

Employers' Association Firm, Refusing All Suggestions of Compromise With Workmen.

Chicago June 21.—Mayor Harrison and the Cook County board of Commissioners were today asked by union representatives to force big building contractors to arbitrate the dispute that caused the employers to issue an order locking out approximately 30,000 men employed in the building trades in Chicago.

A committee from the Building Trades Council informed the mayor that work on city buildings was the refusal of the Building Construction Employers' Association to submit to arbitration. Another committee pointed out to the county board that work on the new county hospital had been halted.

Members of the Employers' Association have refused all offers of arbitration. They will meet with the men, they said, only after striking marble workers return to work on the Continental and Commercial Bank building.

"The men are anxious to arbitrate," said Simon R. O'Donnell, president of the Building Trades' Council.

Labor leaders today denounced the employers for trying to work on the new county hospital. The old hospital is overcrowded and there has been a demand that work on the new building be rushed. The unions declared that they called off a strike that had been planned on the county hospital, solely for humanitarian reasons, because they did not want to delay completion of the work.

NEW CUSTOMS DISTRICT.

Collector Will Cover Washington, Alexandria and Maryland

Under the reorganiation of the customs service to take effect July 1, orders for which have been sent out by Secretary McAdoo, as stated in the Gazette, Baltimore will become the central point in one of the greatest custom districts in the country.

The reorganization reduces the number of districts from 162 to 49, and, consequently, results in great extension of the territory under control of each collector. The new District of Maryland, which will be in charge of Collector William F. Stone, will embrace the entire State of Maryand, the District of Coumbia and Alexandria.

The ports of entry will, be in addition to Baltimore, Annapolis, Crisfield, Georgetown and Alexandria. The new regulations require the Collector of Customs for the district, or some one designated by him, to visit each port once a month for supervision of the local office. The final appraisements and liquidations will be done at the headquarters for the district—that is, at Baltimore in the District of Maryland.

Collector Stone probably will be in charge of the Maryland district during the entire period of organization It is genrally understood that he will be allowed by the Wilson administration to serve his full term. This does not end until the middle of 1914, and in the year or more in office remaining to him, it is thought he will complete all the details of adjustment connected wth the new efficiency plan of Secretary McAdoo.

POLICE COMMISSIONERS

Mayor Fisher, Who Suspended Special Officer Robey, is Sustained

At the meeting of the Board of Police Commissioners held in the Aldermen's chamber of the City Hall last night the action of Mayor Fisher in suspending Special Officer Robey for conduct unbecoming an officer last February was affirmed. The Mayor and Commissioners Shinn, Knight and Oehlert were present.

Robey was employed by merchants conducting business on King street and the river front, and one night last February, he with his brother, John Robey, went to the house of Virginia Bell, colored, on the north side of Gibbon street, between Fairfax and Royal, alleging that they were searching for a man named Miller, who, it was said, had been engaged in a cutting scrape. While in the house they became involved in a difficulty with a colored man named Alexander Roy, during which Roy claimed he was assaulted by the two men.

The Robeys were arrested and fined $20 in the Police Court. The Mayor later suspended Robey, and the latter had appealed last night for reinstatement.

The examination of the case consumed about an hour, during which the Bell woman, her daughter, another colored woman and Roy repeated substantially the testimony they gave at the trial in the Police Court. The Robeys also made statements.

The commisisoners affirmed the decision of the Mayor in the case.

Afterward the board elected Chas. G. Miller a member of the police force to fill the vacancy caused by the resignation of Policeman Charles W. Nowland.

Willie C. Litchford, Owen R. Evans, Herbert W. Spyhman, Thomas S. Snellings, and Robert C. Carter, were among the candidates for the position.

The board unanimously recommended an increase in salary of from $75 to $100 for Chief Goods upon his own application, ant this recommendation will now be submitted to the City Council for its action.

DISAPPOINTED PARTY.

The Sunday school of the M. E. Church South had planned for giving an excursion to Indian Head on the steamer St. Johns last night, and about three hundred persons who had purchased tickets were on the wharf at the foot of Cameron street when the steamer was seen approaching. To their great disappointment, the boat glided by the city without stopping. She was packed with humanity to her fullest capacity, there apparently being no standing room for any more. She had left above five hundred would-be excursionists on the wharf in Washington.

General Strike Threatened.

Roanoke, Va., June 21.—It is learned that a general strike of all union men of the city is under consideration.

A special meeting of Central Trades and Labor Council has been called to consider a very grave matter of business.

If such a step were to be taken it would have first to receive the sanctions of the crafts or unions involv-Labor and the international organizations of the crafts or unions invilved. This necessary routine would cause some delay, and such a strike, if undertaken, could hardly start before the expiration of thirty days.

Richmond, Va., June 21.—J. H. Barton, government storekeeper-gauger, and F. W. Harper, proprietor of the Beaver Dam Distillery, of Mecklenburg county, were held for the October term of the Federal grand jury on the charge of defrauding the government of its internal revenue tax on spirits at a preliminary hearing yesterday afternoon before United States Commissioner Flegenheimer. HARRISONBURG CLAIMS PENCE.

Congressman Sued for Divorce Native of the Valley of Virginia.

Harrisonburg, Va., June 21—Form- of Congressman Lafayette Pence, of Colorado, a native of Rockingham county, is the defendant in a suit for separation brought by his wife, Mrs. Catherine Soper Pence, in New York, last week.

"Lafe" Pence, as he is better remembered by many of the older residents of Rockingham, was born near Peach Grove, four miles southeast of Harrisonburg. His parents moved west when he was a young man. After studying law he located in Colorado, and was elected district attorney of Denver in the 80's as a Republican. When the populist wave spread over the western and Rocky Mountain state, he became affiliated with that party and was elected to Congress from the Denver district, serving two terms.

In the presidential campaign of 1892, he stumped the Valley of Virginia in behalf of the populist ticket and later became a Democrat, being a strong supporter of Champ Clark for the Presidential nomination in 1912. He addressed the Democratic State convention at Norfolk last year in favor of instructing the Virginia delegation for the speaker. In recent years he has been practicing law in the East, maintaining offices in New York and Washington. He has large family connections in Rockingham and Shenandoah counties.

NEGRO NURSE ON RAMPAGE

Becomes Insane at Richmond Home and Attacks Children.

Richmond, Va., June 21.—Becoming suddenly insane, Sarah Jackson, a colored nurse employed by Mrs. Thos. L. Moore,, of "Mooreland," Henrico county, ran amuck Thursday morning and attempted violence on the children in her care and chased a negro butler through the woods with a brick.

With half her clothes torn from her body, the colored girl, in her sudden acute frenzy, chased nearly every one in sight, and created the greatest excitement and alarm before she was finally subdued.

Mrs. Moore, who was in great fear for her children, summoned two negro men to her assistance, but it was only with utmost effort that they were finally able to subdue the frantic nurse and tie her down so that she could not harm herself or others Wet towels were bound about her feet and hands, and she was placed in an automobile and brought to Richmond. Mrs. Moore accompanied her nurse, and at Elba station jumped out of the machine and asked excitedly for a policeman. Officer Tyler ran up to her and immediately took charge of the frenzied girl. She struggled frantically to escape, but was taken to the second station where she was docketed as a prisoner suspected of being insane. She was then taken to the city jail for safe keeping.

It was said that the girl became crazed because of her unrequited affection for the butler.

JURY FAILS TO AGREE.

Mrs. Clara Bosserman Charged With Perjury in Trial of A. D. Worth.

Staunton, Va., June 21.—After over twenty hours of deliberation, a report of disagreement was returned about Thursday afternoon by the jury in the case of Mrs. Clara Bosserman charged with perjury in the recent trial of her "alleged affinity," Albert D. Worth.

Disagreement had been expected by practically all who had followed the case and it was no surprise that Foreman S. A. Day sprung when he made his report to Judge Kerr in the corporation court. After ascertaining that there was absolutely no hope of reaching an agreement, Judge Kerr discharged the jury, setting July 1st as the date for a new trial.

Although she had manifested some anxiety during the day, having left the courtroom only for dinner, Mrs. Bosserman took the result of the case calmly, and after a consultation with her attorney, Charles Curry, returned home, accompanied by her sisters, Mrs. Nellie Rowan and Hallie Rowzee. Mrs. Rowan's trial will not come up until the retrial of her sister.

The jury, one of its members stated, stood eight for acquittal and four for conviction, and had stood so practically from the first.

The Truth About Electric Cooking

For large families where the average domestic help is employed and a large amount of cooking done, Electric Cooking will be found more expensive, and in most cases not advisable.

In small families, where no help is employed, and where nice equipment is desired, Electric cooking will be found many times more convenient, more certain in results and safer in operation—as well as reasonable in cost.

In every family a few utensils for early breakfast emergency and special uses —and for cheering up cold meals with a warm dish or two—is highly advisable from every standpoint, including that of economy.

LONGEST DAY OF THE YEAR.

According to the almanac, summer begins today, although the temperature has several times this month been suggestive of the advent of torrid weather.

Since the 21st of June mother earth has traversed an orbit, according to astronomers, of six hundred million miles, traveling through space at the inconceivable speed of seventeen or eighteen miles a second. We are not about ninety three million miles from the sun. By the twenty-first of next December the space between the earth and the day god will have been reduced to ninety million miles.

In the hurry and bustle of the world there is but little sober thought upon the part of the great mass of humanity of their surroundings, and it is difficult to comprehend that we are voyagers in the blue vault of heaven in dare being whirled through space at a speed we could not follow with our eyes, and are surrounded by orbs engaged on similar stupendous journeys.

Twinkling planets, as ships passed in the night, are doubtless watching us as we scan them and speculate upon the wonders of creation.

Thomas Carlyle, who scratched his head over the problem of human destiny said we are all as infants when they first gaze upon the clouds. They are perplexed and they eveloves into me nand women while the wonder still grows.

The great Scotch thinker could only repeat what we all know—that we are placed between terrific forces terrestrial and cielestial, and that it is impossible for any one to lose sight of the fact that all are dependent upon a First Great Cause and we naturally look up to powers beyond our own.

QUESTION OF TARIFF RATES.

The question of tariff rates has been so many years a serious problem in the halls of congress and to the business interests of the country that it is well, occasionally, to hear the dispassionate opinions of well informed men who have nothing to lose or gan by the tariff and are not bound by party doctrines which might have a tendency to influence their judgment.

In these days of tariff tinkering the Republicans have cried out against reduction on the ground that it meant business disaster. The words of a distinguished English banker Frederick Huth Jackson, member of the Privy Council and director of the Bank of England, who has just left this country, should ease the minds of those protectionists who out of a spirit of patriotism, oppose the changes which they would have us believe are leading the nation on to financial collapse. Regarding the money market Mr. Jackson said:

"Conditions in the United States seem to me essentially sound. Bankers appear to have the situation well in hand, and I believe that if they will continue to exercise control you are prepared for any emergencies that may arise. It should be a source of much satisfaction that the country has demonstrated great strength by the way in which it has absorbed Europe's heavy sales of securities in the last nine months. Your remarkable export trade probably indicates how these securities have been absorbed."

Surely he had no axe to grind. Certainly there was no motive in his optimistic view of the situation. the democratic party ever needed any assurance from that its tariff program would not bring the financial house of cards tumbling about our ears it has received it from an impartial expert who has the breadth of view to comprehend the scope of national business.

That the operation of the new tariff law will necessitate readjustment in some lines of business is certain, but not more certain than that some industries need a readjustment that will enure to the benefit of the nation at large. The visit of the English banker has not been in vain if his words can have any influence on the minds of those showing an honest timidity concerning tariff legislation That they will have any effect on a large class of Republican politicians working for special interests is not to be expected.

TO DECIDE CONTESTS.

State Board of Education to Meet in Richmond Monday.

Richmond, Va., June 21.—In practically every county immediately adjacent to Lynchburg, there are contests for the office of division superintendent of schools which will come up for decision before the state Board of Education in Richmond next Monday.

In all, forty-seven counties in the state have contests, with from two to six aspirants in each. These will be taken up one by one, the board sitting daily until they are disposed of. According to the Richmond papers and dispatches, the members of the board living there have been deluged with letters and telegrams and friends and candidates—all urging the appointment of some aspirant. That the sessions may have to continue at least several days is promised in the fact that in several of the contests charges have been made against incumbents which will have to be sifted. The nature of these charges have not been made public, nor is it known whom they affect.

In this section the contest in Campbell county has perhaps been the most interesting. There were three candidates but the contest has apparently narrowed down to two—the present superintendent, W. L. Garbee, and Prof. W. G. Shackleford, of the Virginia Christian College. The friends of both have been aggressive in their behalf..

In Amherst county there are four aspirants, as follows: F. C. Campbell, the incumbent; J. Walter Kenny, C. L. Scott, George M. Claiborne.

In Appomattox county there are three as follows: J. Lindsey Crawley, N. R. Featherstone, and Robert C. Hubbard. All of these are new candidates.

In Bedford county there are two, C. M. Abbott and Norman Blankenship, both of them new candidates.

The Lynchburg city superintendency has already been decided, there being no opposition to E. C. Glass, who was elected by the State Board for another term.

A whale came up the Deleware river the other day. The natives should have captured him and boiled him down. It is about the only chance they are likely to have to compete with Standard Oil.

A Japanese newspaper tells how to live a hundred years. Its reader might figure that not enlisting in war against the United States would be a step toward that end.

A lunch counter proprietor had to pay a man $150 because he broke a tooth on a piece of pie. It was evidently of the kind that mother used to make—when she was first married.

They are working on costumes for the 4th of July pageant in Washington. Formerly bandages were very much in evidence.

Today is the official opening of the summer season. If any one has the temerity to doubt it, let him look at the thermometer.

the above described prpoerty.

This tract, the old home of Lord Fairfax and separated from George Washington's home at Mt. Vernon by Dogue Creek, originally consisted of approximately twenty-seven hundred, (2,700) acres, of which 1,500 acres has been taken by the United States Government for a school of Equitation of Horsemanship. The balance, between ten and twelve hundred acres consists of valuable farming lands and about eight hundred (800) acres of valuable timber It has a large deep water frontage on the Potomac river as well as a large frontage on Dogue Creek, with valuable fishing shores. The property is improved by an old mansion house, familiarly known for many years as the "White House," a club house, barns, stables, out-buildings and tenant houses. It is situated on the county road between Mt. Vernon and Accotink, and is about four miles by road from Mt. Vernon. This property is one of the most historic in the section and would make a very desirable country estate because of its location and the opportunities afforded for fishing and shooting.

Tar Roofing That Is Fire Proof

Resistance to Fire

Besides its superior weather-proofing qualities and other advantages already mentioned, Security Roofing possesses still another requirements of the good roof. Its resistance to fire is remarkable Two instances of this will suffice for practical illustration :

At Middleport, N. Y., the building next to one covered with Security roofing caught fire. The burning building was the taller of the two, and was surmounted by a cupola. When the roof beams collapsed this cupola fell over upon the Security roof and burned away there until entirely consumed. The Security Roofing stood even this severe test successfully.

So much for its resistance to fire from without. But it will also hold an interior fire in check, until the roof beams are burned away.

AT ALEXANDRIA, VA., after a building had been gutted by fire, the Security Roofing with which it had been covered was undestroyed. It hung suspended from the walls and charred remnants of the rafters, though the floors and major portions of the roof had burned to ashes.

It Pays to Buy and Use GOOD Roofing

We believe it pays to have quality in our product even though it costs more; and we know from long experience that the only way to shave the price is to shave the quality.

We have never been willing to reduce the quality of Security Roofing, and do not recommend the use of cheaper and consequently inferior materials.

But the use of Security Roofing is nevertheless the truest economony. for it always pays to get the best.

It costs very little if any more, to begin with, and saves more than its cost in the long run.

Security may be laid over shingles or other composition roofing where surface is reasonably smooth. Order now of

A CARD.

The excursion committee of the Washington Street M. E. Church Sunday School was yesterday evening placed in rather an embarrassing position before the school and patrons, the occasion being a moonlight trip down the river on the steamer St. Jonhs. Arrangements had been duly made with a committee from one of the Washington school whereby our school was furnished a certain number of tickets and room reserved on the steamer for a like number of passengers, but the crowd was so great in Washington that our reservation was allowed by the Washington committee to be consumed beside about five hundred Washington people who wanted to go were left on the wharf. Consequently the boat did not stop at Alexandria and our crowd of over 300 people were greatly disappointed. The blame for this state of affairs should be placed where it rightly belongs—upon the Washington committee and not upon the committee of our school. As soon as the matter can be adjusted with the Washington committee further announcement will be made through the newspapers regarding the proper disposition of the matter.

GOES INTO ICE BUSINESS.

Cincinnati Establishes Depots for Frozen Water in Engine Houses.

Cincinati O., June 21.—The city of Cincinnati went into the ice business yesterday when it established depots at all of the fire engine houses of the city, where families were supplied who could not obtain ice from their regular dealers on account of the strike of ice wagon drivers, their helpers and engineers of ice plants. The action of the engineers in going on strike resulted in the closing down of a number of plants and a further curtailment of the ice supply. To alleviate the sufferng and inconvenience of the people. Mayor Hunt telegraphed to the mayors of Indianapolis, Cleveland and Columbus to ship as much ice as possible to Cincinnati. The mayor also called city council in special session today to act upon an appropriation of $5,000 to be used by City Health Officer Landis, who is handling the ice business of the city.

Many of the smaller ice companies and individual dealers have acceded to the demands of the union and are supplying ice to the hospitals and charitable institutions, but they cannot distribute to the entire city and owing to the excessive heat much suffering is being felt.
